Agenda item: Proposed change to COCC Requisite Definitions

Please note: If an item listed is not relevant to your specific presentation to Academic Affairs, please mark as **N/A**. Use as many pages as necessary.

OVERVIEW OF PROGRAM OR POLICY

"Requisite" is the generic term referring to prerequisites and corequisites, etc. The current COCC requisite definitions were approved in 2012 as the result of a task force that clarified the difference between enforced and unenforced preparatory courses and established the process of approval.

Banner has a category of "prerequisite with concurrency" which has recently been used but was not included in our definitions. This proposal addresses this omission.
